آلزایمر

این مجموعه تلاشی ست برای به تصویر کشیدن پدری که این روزها درگیر بیماری آلزایمر است. بیماری ای که عوارض آن، خوابهای مکرر، حرف های نا مفهوم، اختلال های رفتاری و گاهی حتی توهم و ترس است. این مجموعه قصدی در بیان کامل ابژه نداشته، بلکه هدف، بیان حسی ست که هنرمند از مدل (یعنی پدر) دریافت کرده است. گاهی بازنمایی از بیمار و گاهی در کالبد و فردی دیگر (شاید خود نقاش).

بهار ۱۴۰۴

Alzheimer's

In this collection, all my efforts have been focused on portraying my father, who is currently struggling with Alzheimer's disease. Its symptoms include frequent sleep, incoherent speech, behavioral disturbances, and sometimes even hallucinations and fear.

Rather than a complete representation of the subject, my goal is to express the emotions he evokes in me through varied techniques. The portraits alternate between his likeness and fragmented glimpses of another person (perhaps myself).
